

First purchased new in June 2012, bought by me in January 2014 in immaculate condition with 20 hours. We used it for a week and three other weekends in Devon in 2014 and only managed the three outings this year as above.

This comes with many extras, most shown in the photos:

- Honwave T35
- Honda BF20hp outboard
- Fully galvanised SBS trailer (New in 2013)
- Travel box for easier long distance trips, and it saves fuel.
- Fuel tank and fuel line
- Honda thwart seat
- Honda bow storage front cover
- Full boat cover
- Launch wheels
- Heavy duty load straps
- Transport trolley for outboard
- Wooden stand and modified dustbin for fresh water flushing after use
- Anchor with chain a warp
- Tow hitch lock for trailer
- Wheel lock for trailer

~~Spare wheel for trailer~~

For pump and pressure gauge
 Repair and valve work
 Spare parts, cord and cables

The boat has never been retained and held pressure for the week on holiday. We have sometimes not used the trailer and just packed it in the car for ease of parking. We've had a great time in it and now plan on upgrading to a bigger boat hence the sale. More than happy to arrange a test on the Thames and could negotiate delivery if required. Any questions please email or call and have yourself a great boat ready for the next season. Fabulous Hornwave T35 inflatable boat with aluminium floor, great boat and very stable. The engine (June 2012) was last serviced June 2015 by Bridger Marine and only used three times.

Honda T35 3.5m inflatable
Honda 20hp outboard
Honda 25hp outboard

since, one afternoon at Salcombe and two afternoons on the Thames.
