This caravan was brought as a experiment to see if caravanning was for us or not. We took this away at half term and even though we had heavy rain it was dry inside. Although it does have many bad points which I will start with. DAMP and lots of even though the van seems dry inside it is very spongy on the walls and has had damp in most walls. Fridge works on gas but took a while to light can not get it to work on electric. See photos regarding skylight think previously must have leaked bad lots of sealant has now been used on a repair there now. Roof has been taped where it was damp and sagged, someone then opened bathroom door and tore this. There are 2 front windows that have very small cracks in them. No spare wheel. The corner cushions at front are threadbare. Also the awning has a mismatch on one of the poles and awning curtains are showing there age. kitchen light has been removed. Also the table was missing when we got it so we have just knocked up one, which is usable but not great. The door has had damp in it and been taped. The good points are the chassis is good. All cushions present. carpet and curtains fine. All electrics ok. Gas oven, hob, fire and gas light all in working order we used a carbon monoxide tester during our trip

and all seemed fine. although we used electric heater and electric lighting.

Has a multi in built power sockets and a

light can be.

Has a large space

seems to be ok and we had lights on for to

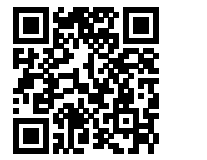

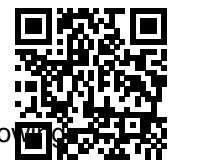

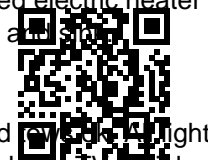

Comes with cd player, speakers and large TV aerial.

The floor seems sound.

Door comes with 1 key.

Perfect for spare bedroom at Christmas has 4 electric sockets just needs hook up lead.

Great price. please phone
