TUMBLE DRYERS

Beko Dry more clothes in one cycle with the 8 kg capacity Beko DCX83100W Condenser Tumble Dryer. Sensor Drying The DCX83100W prevents over-drying and helps save you time and money on your energy bills. Its intelligent sensors monitor the levels of moisture in the drum and automatically stop the machine when the desired level of dryness has been reached - delivering better care and protection for your clothes. Special care programs With 16 programs to choose from, finding the right cycle to suit your laundry is easy. Whether you're drying delicate fabrics, shirts, jeans or bed linens - the DCX83100W has got you covered. You can even cut down on ironing thanks to the tumble dryer's automatic anti-creasing feature. By rotating the drum every 60 seconds for up to two hours after the cycle has finished, it ensures your clothes stay crease-free until they're ready to be taken out. Auto Cool down Unloading the tumble dryer has never been easier. Not only does the DCX83100W have a convenient 178° door opening, its Auto Cool Down phase also cools down your laundry just before the cycle ends, by blowing air into the drum. Easy to use Featuring a clear LED display, the DCX83100W is beautifully easy to use. Keep up to date with the time remaining on each cycle and change settings at the touch of a button. The DCX83100W conveniently comes with a drain hose, which can be connected to the drain pipe for direct exposure of water - giving you greater flexibility in the home. Take care of the whole family's laundry and take the hassle out of heavy laundry days, with the Beko DCX83100W Condenser Tumble Dryer.
