VW T25 Campervan   Regrettably its time to sell my beloved campervan (Gilbert) I have been fixing him up for several years now, I have got all the mechanical and running gear sorted and its all running very well, the chassis and floor are in great solid condition. This winters project was to sort the signs of rust in the body work, I'd left this part of the project till last as its not that bad and the priority was a reliable and nice to drive van.   With a very young family and work commitments we had not really used him that much over the past 2 years and next year I see the same thing happening so its time to pass him on to the next person to enjoy   This really is a great van, here is some more details   1.9L Petrol   DG engine   5 speed manual   Solid side Pop top roof with room for 2   Electric power Steering with automatically adjusting variable speed sensor, this makes the steering firm at driving speed but when stationary light enough to turn with one finger, this is the best thing I ever had fitted   Leather Alfa Romeo front Seats   Passenger swivel captains chair   Leather steering wheel   Lowered 40mm   Audi A4 16"Alloy wheels, in mint condition   Split charging   ¾ rock and roll bed, A metal one (not the cheap wooden version)   Rear seat belts   Gas stove & grill   Gas bottle with new regulator and hoses   Sink with electric button tap   240v Hook up   Removable table   Plenty of storage   New clutch slave cylinder and hoses   New electric fuel pump and fuel hoses   New fuel pressure regulator   New exhaust silencer   MOT till Aug 2016   Stereo with Aux in and USB connection   4 speaker system with rear 6x9's   Viewing is a must   Maidenhead, Berkshire   Just off M4 Jct8/9   £5000 ONO   ADVERTISED ELSEWHERE SO I CAN END THIS AUCTION WHENEVER I LIKE   NO OVERSEAS STUPID OFFERS CASH ON PURCHASE
