Peugeot's Kisbee 100 scooter combines performance and economy in a package designed specifically for the urban commuter. The average UK commute is 8.6 miles and the 100cc Kisbee has plenty of power to keep pace on busy urban routes and contend with out of town stretches too, and at just 680mm wide it can be squeezed through gaps in the traffic and into tight parking spaces. Weighing just 92 kilograms and powered by a modern four-stroke engine, the Kisbee is capable of over 100 mpg (2.8 litres/100km). With a seat height of 735mm, ample leg room and a relaxed riding position the Kisbee is easy to handle for riders of most shapes and sizes. Beneath the seat is a lockable storage compartment, large enough for most full face helmets or some.
