

Stellar Drive Toolbox is a powerful pack of many in-built tools that helps in managing and optimizing Mac OS X. Some of the exciting features of Stellar Drive Toolbox are:-

1. Partition Manager: - Used to create, resize, and delete the Mac partition.
  2. Drive Clone: - It enables the Mac users to make a bootable clone of their hard drive. The powerful modules allow users to take backup of their important data.
  3. Speedup Mac: - Speedup Mac feature of Stellar Drive Toolbox helps in improving the performance of a slow Mac by removing unwanted cache, log files etc.
  4. Smart Finder: - Smart Finder feature allow in finding large files and folders in the Mac system.
  5. Drive Monitor: - Drive monitor feature is mainly used to automate the process of monitoring SMART parameters of the HD.
  6. Benchmark: - Benchmark feature helps in analyzing the overall performance of Mac HD by calculating the data transfer rates.
  7. Data Encryptor: - This feature adds extra level of security by protecting files and folders.
  8. Volume Optimizer: - Using the volume repair feature, users can repair any type of disk errors.
