12 months MOT, HPI clear, 63,000 miles. Full service carried 1000 miles ago. It has been well looked after and is mechanically spot on. Plenty of paper work and service history to confirm this. 1 elderly owner from new. Few ages related marks but nothing noticeable still in very good condition for year. Interior in great condition rear seats like new! Air conditioning, remote central locking, electric windows all working fine. Very reliable and economical car and cheap to.
