

# Carpet Cleaning

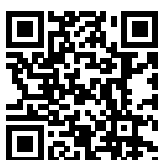

Location

**South West, Isle Of Wight**

<https://www.freeadsz.co.uk/x-222422-z>

A healthy home or office starts from the ground up, with clean, fresh carpets; rugs and upholstery, cleaned thoroughly in the correct way. Our modern carpet cleaning equipment will ensure your carpets and furnishings are cleaned to the highest standards, using 100% environmentally friendly products. We do not use products that contain any phosphates or harmful chemicals like most store bought products. We have one level of service - Excellent. Each and every customer is very important to us and we strive to give the best carpet cleaning service to all, regardless of whether you are a large company or standard home-owner. We believe that environmentally safe cleaning is the only way to go. We use only safe, self sustaining, bio-degradable products which are tough on stains, bacteria and odours, but are kind to your home, office, family and pets. We make sure all of our products are fully safe for your little ones, those with breathing difficulties such as asthma and COPD and those suffering with sensitive skin. Our products are all derived from natural, sustainable sources and are non reactive with other chemicals. We offer fibre testing, complete vacuuming of the entire area to be cleaned, pre-spray treatment to loosen soils, machine scrubbing of the carpets, high power extraction, individual spot treatment and deodourising. This method is effective on stubborn pet stain, spillages, germs, pathogens and bacteria including MRSA. We have proudly provided carpet cleaning in Southampton for over six years, and can happily say that we enjoy a 97% client retention rate, which speaks for.
