FORD MONDEO 2.0 TDCI 56 Plate NO MOT, Needs some small parts and time and a decent service, to make a decent car there is a Noise coming from the N/S/F maybe bearing? No Parcel Shelf, O/S Wing Mirror Plastic Cover missing (mirror still on the car), Ignition Switch (that plugs into the back of the barrel) as the ignition barrel is fine, and maybe a 2nd hand Alternator as this was the original cause messing up the switch I think?? .FULL LOG BOOK AVAILABLE, Only 1 former keeper!

RECENT MOT's, Ford books, a little bit of history. Engine starts straight away and sounds fine, The Clutch and Gearbox feels normal.
