The laptop is used but in good working order, the condition is good as well as you can see on the pictures. The original hard drive failed and I replaced it with smaller one 120GB. I installed fresh Windows 8.1 Pro just to taste it and everything works fine, just Windows 8 couldn't find driver for the camera, but I have no time to look for driver manually on the Net...If you want, you can install any other Windows version. CPU is 2.0GHz, RAM is 2GB, HDD is 120GB, Windows is 8.1Pro, Sound system: built-in Harman Kardon® stereo speakers, Charger provided.
