We are offering an exciting service for your canine companions. We offer the chance to help train you, the owner, on how to train your puppy/dog. We offer this as a very unique one-to-one service which can be held at your home, for your puppy/dogs comfortability or you can come to us. At the same time we offer rehabilitation services for any puppy/dog issues. We use a completely force free approach and prefer to use positive association methods as apposed to punishment. We offer to help to rehabilitate your dog to correct any issues that may be present, from them pestering you at the dinner table to showing signs of aggression (fear or dominant based). A lot of clients tend to just want an overall check of their dog, for us to check their dog or puppy is showing the right behaviours to be a happy and stable dog. So don't be shy! There doesn't have to be an issue, for you to call us. Any first consultation (depending on distance) is completely free (this does not count when it comes to basic training classes, only assessment consultations). Then from that point on, if you choose to continue with whatever treatment/help needed, charges will be discussed. We ask, please make sure that for any behavioural issues, particularly in older dogs, that they have been checked out by a vet, we cannot proceed with any rehabilitation programmes unless we know the dogs health status. Feel free to give Anastasia a call on: 07429696329

We are available for a chat any time between 8am-7.30pm, every day of the week, except Sunday. The average basic training lesson is £8-£10 an hour. But prices can be discussed and adjusted to your requirements. Hope to hear from you!
