

Gaming pc - High-end i3 for 500 (500 GBP)

Location **South East, East Sussex**
<https://www.freeadsz.co.uk/x-231334-z>

Gaming pc bought a year ago from Mesh, very good quality, good for new gamers! Build contains:

- i3-4160 Dual core running @ 3.6GHZ
- 8GB patriot RAM 1600mhz
- MSI H81M-P33 motherboard
- MSI GeForce GTX 750 1GB GPU
- 1TB Seagate HDD
- FSP Group 500W PSU
- Cooler Master case

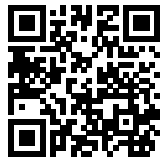

Basic optical drive included. The operating system will be Windows 8 and the key for it is on top of the case. Please message me if you would like to have the free Windows 10 update as well as Windows 8. Over clocking is not supported. Hyper-threading is enabled in the bios. I will include a list of necessary drivers for the pc to run on a piece of paper within the box. Unfortunately I don't have the original disks. (It's better to get them online as they are updated ones. I will install them when I reset the pc) Comes with original box! Please contact me if you have any questions either through my email or you can message me through my number although I would prefer email. I would rather the price stay at £500 (I may allow it to go down to £450 but nothing under £450). Runs most games at Med-High Settings. Good price for everything that comes with it!

Not available on website anymore. Thank you for looking. .
