Vitus Bikes Zenium Road Bike

The Zenium features a superlight alloy frame with a full carbon fork; 105 11 speed gearing and Fulcrum Racing 7 wheelset; if performance and value are your deciding factors the new Zenium has it covered on all fronts! High performance aluminium has been the staple of club racers and long distance mile munchers for many years, and rightfully so; with low weight and supreme durability at a fraction of the cost of carbon counterparts; what's not to like! The Zenium features a Shimano 105 groupset; Fulcrum Racing 7 wheelset and Vitus finishing kit to complete the package

Super Light 6061-T6 Triple Butted Alloy Frame With T700 HM-UD Carbon Fork

Our super light 6061-T6 triple butted alloy frameset with smooth welds has been optimised for power transfer and vertical compliance to combine the best of both worlds; up front a tapered headtube and oversized hydroformed tubing culminate in razor sharp handling

Our semi-sloping endurance geometry and slender seatstays increase vertical compliance adding comfort and a balanced ride resulting in reduced rider fatigue and confidence inspiring handling.

The T700 HM-UD full carbon fork features a tapered carbon steerer for increased steering precision with reduced road buzz from rough road surfaces

Features:

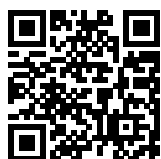

Frameset: Frame: Triple Butted 6061-T6 Alloy Forks: High-modulus T700 HM-UD carbon with tapered carbon steerer

Groupset: Chainset: Shimano 105 5800, 50t x 34t Bottom Bracket: Shimano 105 5800 Brake/Shift Levers: Shimano 105 5800 Front Derailleur: Shimano 105 5800, 31 8mm band Rear Derailleur: Shimano 105 5800 Cassette: Shimano 105 5800, 11-speed, 11t-28t Chain: KMC X11, 11-speed

Wheelset: Rims: Fulcrum Racing 7 Front Hub:
