

1970s VICENTE SANCHIS HANDMADE SPANISH GUITAR MODEL NO. 29 (115 GBP)

Location **South East, West Sussex**

This is a beautiful guitar by the Spanish maker Vicente Sanchis and dates from the 1970's. It has the original London supplier's label inside the guitar as they were the sole distributors of Sanchis guitars in the UK.

This guitar sounds fantastic - very rich & warm with great tones. It tunes easily - really stable with each string bang on its note!

Please note: A new set of strings is required. I decided not to replace the strings as it would be better for you to buy some that suit your own style & taste & I've reflected this in the low price.

This has been a very well-loved and used guitar over the past 40+ years and does show some wear to the finish here and there. I've tried to show these in the photos.
Overall, though, this beautiful instrument has stood the test of time very nicely.

A quick search on Ebay or Google will tell you everything you need to know about the quality of this guitar and you will see that new Sanchis models run into the £1000's.

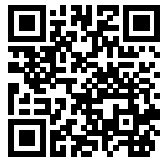

This is a great opportunity for you to buy a quality guitar at a reasonable price!

Also, as a bonus, I've included a stand & soft case.
