Neurorubine Forte Lactab (Vitamin B complex - B1 + B6 + B12) N20

EXP.DATE: 10.2018

Neurorubine Forte Lactab combines in high doses three vitamins which are indispensable in the nervous system. (Vitamins B1, B6, B12)

Composition: Each film-coated tablet contains: thiamine nitrate (vitamine B1) 200 mg, pyridoxine hydrochloride (vitamine B6) 50 mg, cyanocobalamine (vitamine B12) 1000 µg, colour E127 (erythrosine) and other excipients.

Indications and Dosage: Adjuvant in neuritic pain (acute or chronic neuritis and polyneuritis); neuralgia; toxic damage of the nerve tissue (alcoholism, diabetic polyneuropathy, drug intoxication). 1-2 tab daily. Severe cases: At the beginning of treatment until pain subsides, 2 tab daily.

Contraindications: Hypersensitivity to vitamins B1, B6, B12 or excipients; psoriasis.

Precautions: Should not be used in children.

Pregnancy/Lactation: Only if potential benefit outweighs foetal risk.

Undesirable effects: Inhibited release of prolactin; reduced therapeutic effect of levodopa unless a decarboxylase inhibitor is given at the same time; increase in SGOT in the serum; acne; acne-like rash; sweating, feeling of weakness, globus symptoms.

All orders are sent within 48 hours of cleared payment. All items are sent first class in plain white padded envelopes and postage is Free.

International

All orders are sent within 48 hours of cleared payment. We are happy to offer postage discounts but in order to do this discount we need to limit the weight of the parcel to 2kg in each of the parcels you order. For the above request, we will be adding any postage that you have ordered to your bill. Orders that are sent via Royal Mail International Standard (for the UK) or Royal Mail International Special Delivery (for the rest of the world) are sent via Royal Mail International Standard or Royal Mail International Special Delivery. <http://elivera.co.uk> > Elivera
