1974 kawasaki KE100 trail bike,american barn find.showing very low miles 2,451,very original with nice fuel tank inside and out. has nice chrome wheel rims,original stunning chrome mudguards and super rare original air filter housing,will make a great project the high low ratio casing is only loosley fitted as i think it was removed to fit new points and the flywheel nut has been lost with a few casing screws.we squirted some fuel down the plug hole and it fired up straight away.there is no hi/low control lever or cable fitted.we will have the nova proof of payment on taxes as it was imported by RBs kawasaki,and we have the american title so no dating cert required.once moted you will be able to register for £55 onto an age related road tax free plate.we may be able to deliver email post code for a quote.over 50 seventies bikes in stock. we have 60 seventies project bikes in stock but selling fast Last chance to buy this bike otherwise it goes in my collection as it is very nice,happy new year.we also have a rough ke100 project in stock at
