A positive pregnancy test last means means it it time to sell my beloved Z3. I bought this last summer, and have done many miles in this wonderful car. It was taken off the road, with the intention of doing a couple of bits this winter. As a result, it will come with 4 brand new speakers, but will still need the subwoofer replacing. The speakers have been sourced from Huets in Shoreham, and are high quality direct replacements. This has been done as I wanted to keep the car original. They have a few subwoofers waiting, and they are £100. The car needs taking to them so they can find the best one. This will cost £100. It comes with the original Harman Kardon 6 speaker stereo upgrade, and CD multi-changer. The second job was to fit a new front bumper. The old one is perfectly serviceable, but a small slit in the front made me want perfection. As a result, it will come supplied with a second hand bumper, which has been professionally sprayed in the matching Impala Brown. If I get time I will fit it. The hood is perfect, along with the rest of the bodywork and interior. It runs and drives beautifully, and everything works, including the optional heated seats, side airbags and aircon. It was a Cat C back in 2004, but was repaired and resold by BMW, so you will not find any evidence of this, and it doesn't affect the car in any way. It is currently sat in my garage, and the MOT has expired. I will put a new MOT on for the new owner, and if it requires any work, including advisories, I will ensure they are done, but it won't need anything. As it says in the listing, I will swap or part ex for something from 1995 or older, that has 4 or more.
