

Zebra Finch (5 GBP)

Location

South East, West Sussex

<https://www.freeadsz.co.uk/x-232463-z>

I've had a population explosion of zebra finches. At the moment i have around 10-12 youngsters, all weaned and independent of the parents. Some fully coloured up and others still in juvenile plumage, some can be accurately sexed others not with such certainty. They are largely grey's with variable amounts of white pied plumage. Raised in an indoor aviary, and will need to stay indoors at least until winters over. Collection only from.
