smooth and effortless to drive. The steering is light and positive. The only issue I had with this car was the starter motor which was replaced earlier in the year. The Metallic grey really stands out against the alloys and the red brake callipers. A great joy to own and drive, but I am soon to get a company car, so she needs to go to another caring family. Extremely versatile, even with the 7 seats up, there is still a large boot that puts most MPVs to shame. Bags of storage space for the larger family.

Overall in very good condition and looked after. There are a couple of age related marks, but nothing that affects how she drives or performs. So please do not expect perfection, she is not new. :o)

£12295 ono.
