Trip Computer
 15.5mpg like running
 20000miles and 5 speed fully good
 10000miles hidden
 Privacy Glass
 Heated rear and rear quarter window
 Running boards
 7 forward facing seats as standard.
 I have owned this car for the last year, and I will be sorry to see her go. I have enjoyed every trip in her.
 The power delivery is phenomenal for such a large vehicle. Smooth engine and gearbox along with the
 adaptable suspension really let you know you are driving something special. It is extremely comfortable,

smooth and effortless to drive. The steering is light and positive. The only issue I had with this car was the starter motor which was replaced earlier in the year. The Metallic grey really stands out against the alloys and the red brake callipers. A great joy to own and drive, but I am soon to get a company car, so she needs to go to another caring family. Extremely versatile, even with the 7 seats up, there is still a large boot that puts most MPVs to shame. Bags of storage space for the larger family.

Overall in very good condition and looked after. There are a couple of age related marks, but nothing that affects how she drives or performs. So please do not expect perfection, she is not new. :o)

£12295 ono.
