Trip Computer  
 15.5mpg like running  
 20000miles and 5 speed auto - good  
 10000miles - hidden  
 Privacy Glass  
 Heated rear and rear quarter windows  
 Running boards  
 7 forward facing seats as standard.  
 I have owned this car for the last year, and I will be sorry to see her go. I have enjoyed every trip in her.  
 The power delivery is phenomenal for such a large vehicle. Smooth engine and gearbox along with the  
 adaptable suspension really let you know you are driving something special. It is extremely comfortable,

---

smooth and effortless to drive. The steering is light and positive. The only issue I had with this car was the starter motor which was replaced earlier in the year. The Metallic grey really stands out against the alloys and the red brake callipers. A great joy to own and drive, but I am soon to get a company car, so she needs to go to another caring family. Extremely versatile, even with the 7 seats up, there is still a large boot that puts most MPVs to shame. Bags of storage space for the larger family.

Overall in very good condition and looked after. There are a couple of age related marks, but nothing that affects how she drives or performs. So please do not expect perfection, she is not new. :o)

£12295 ono.
