How often do we seek to find a quick fix with the control of our weight whether it be by diet or exercise or even by eating more just to find that a few days, months or years later we are back to our original state or even worse? With hypnotherapy we can investigate the reasons and behaviours involved with your lifestyle and how they impact on your body and mind. And by reaching these findings we can then seek to remedy the causes which hinder the progress of your will to change. The Hypnotherapy Weight Control programme consists of 5 sessions of Hypnotherapy on a one-to-one basis £275. If you know what you want to change, we can help you make it happen.
