Unfortunately now, the Servo is down and the engine light came on so it's needs servicing.If you buy this car you take it straight to the service and take it from there, I have minimum knowledge about cars and would be pointless to ask what is wrong with it.The car starts fine but the battery and the engine lights show on the dashboard. When you try to steer it's hard as the servo is down.There is no warranty for this car, nor any refunds, once you buy it, it's yours.You are welcome to come and see the car at any time with at least 1 hour noticeIf interested please get in
