We've owned this car for the last 6 years, and has serviced us well in that time. 98000 miles, long MOT (due Nov 2016), Electric Sunroof, Air-Conditioning, Alloy Wheels (15in), Electric Windows (Front), In Car Entertainment. 5 seats, 4 doors, Silver, 3 previous owners, some service history, all previous MOTs plus some maintenance receipts. Have recently had the rear wheel bearings replaced, and not long ago had new coil packs too. There is some rust on the rear wheel arches (could be sorted), and there are a few marks around the car (the car is 16 years old), and a few deep scratches on the rear passenger door. Any inspection welcome, priced accordingly. Many more pictures available on request as could only upload 2 on this.
