MERCEDES BENZ W215, W220 & S CLASS INSTRUMENT CLUSTER REPAIR (1999-2006)

£150

The Mercedes Benz W215, W220 & S Class Dash failure is quite a common fault. On this type of Odometer it is usually caused by internal components breaking down within the Instrument Cluster. The Mercedes repair is carried out by fully qualified electronics engineers which involves stripping down the Instrument Cluster and replacing internal faulty components to rectify the problem. We do not offer "quick fix" we actually replace the faulty parts with new ones required for the Mercedes. Your mileage reading will also stay intact, so there is no need for mileage correction.

Your Mercedes Speedo can be repaired at a fraction of the cost compared with the price of purchasing a new one. **COMMON ISSUES**

Failing Warning Lights

Mercedes Benz Speedometer problems

Flickering Cluster

Complete power failure. Has the whole dash gone blank?

Mercedes Benz mileage correction
