RENAULT SCENIC INSTRUMENT CLUSTER REPAIR (2003-2008) £89 The Renault Scenic Dash failure is quite a common fault. On this type of Odometer it is usually caused by internal components breaking down within the Instrument Cluster. The repair is carried out by fully qualified electronics engineers which involves stripping down the Instrument Cluster and replacing internal faulty components to rectify the problem. We do not offer "quick fix" we actually replace the faulty parts with new ones required for The Renault Scenic and your mileage reading will stay intact, so there is no need for mileage correction. Your Renault Scenic can be repaired at a fraction of the cost compared with the price of purchasing a new one. **COMMON ISSUES** Failing warning lights Renault Speedometer problems Flickering Cluster Complete power failure **REMOVAL INSTRUCTIONS** Unclip top surround downwards and towards you, unclip bottom surround upwards and towards you.
