Strong Yellow and Chocolate Labrador pups looking for the very best homes only. Top quality pups. Peppa, our yellow lab has had a stunning litter of chunky puppies, she is doing such a good job at raising these babies. . Played with every day by our children, they are used to being handled and all household noises. Really amazing pups. I am worming them fortnightly. Each puppy will have its first full vaccination. Viewing very welcome but please no time wasters. The pups are not ready to leave mum until the 20th January at 8 weeks of age.;
