in the area and has a sizeable gas hob and power electric. Plenty of storage space for motor movers and the caravan which are great. It will have power for the battery and can remote control direct to the caravan where you want to go. It is for when you can't supply power for motor movers. It is £1000 so it is a great extra to have with the caravan.

Caravan also has hot/cold water. Can simply heat water by gas or electric by using the inside switches. Also has ALDE Central Heating.

This is a single axle caravan, easy to tow, tyres are good too.  
 Has the paperwork and the manual to help get you started.

---
