Photo coming soon.

Please feel free to pop in and
view the bike in person

Offering Fantastic value for money, The DL650 V-Strom is a very capable machine, with its comfortable, low seat height making it accessible to anyone no matter how tall you are. The 200 mile tank range and 49mpg is not to be sniffed at, making it an excellent commuter. Or stick some panniers on and go a little further! This 2012 example has had two former keepers and both keys, the owners manual and service book which was last stamped by the supplying dealer when it was serviced at 8585 miles. Looking modern in the white, its in very good condition all round and is available to test ride or view right!
