

ALIENWARE X51 Gaming PC Desktop (425 GBP)

Location **South East, East Sussex**
<https://www.freeadsz.co.uk/x-236077-z>

Processor Type: i5-3450 CPU
 Processor Speed: 3.10GHz
 Graphics Card: Nvidia GTX 660
 Operating System: 64-bit Operating system Windows 8.1/10
 Memory: 8.00 GB RAM
 Hard Drive Capacity: 1TB
 Model: X51

Type: Desktop PC The Alienware x51 gaming pc is a great machine for any pc gaming enthusiast out there. With its sleek elegant design it never looks out of place and the ability to change the lighting means it can fit in any room with ease. Its small dimensions and quite fan means it can be tucked away under the desk and rarely noticed if you would prefer to have a tidy room.

This PC has a i5-3450 CPU @ 3.10GHz and a Nvidia GTX 660 graphics card, meaning it can handle almost all current and new titles. This along with its 8.00 GB of RAM means it can handle itself very well and can load up games very quickly. I have played lots of games on it such as Borderlands (Pre-Sequel and 2), Elderscrolls Skyrim and Ark: Survival Evolved. Recently I have been playing Battlefield 4, CSGO, and Heroes of the Storm. It handles all these games with ease, including Ark, which is very graphics and processor intensive.

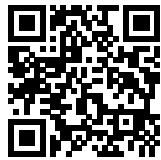

When I first had this PC it operated on Windows 8.1 but has now been upgraded to Windows 10. This means when set back to factory settings it will be on Windows 8.1 but you will have the option to upgrade to Windows 10 (Recommended).

I am selling due to my studies at university becoming my main concern and I no longer wish to be bothered with this game. A much better gaming PC is available for sale. The PC will be sold as is.
