Location **South East, Surrey**

3 months ago we had a new gear box and clutch put in for £1400.

1 month ago we paid another £1400 for the following work back:

MOT

Major service

1 x new fuel injector

New water pump and cam belt

2 x new tyres

New brake pads and oil and few other bits So we have spent £2800 and the head gasket has just blown on New Years day. It's currently at our local garage as a non runner and they're awaiting our instruction.

It's a:

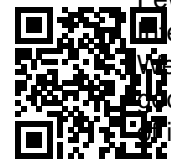

Citroen Xarra Picasso  
 Silver1.6 HDi 92 Desire  
 62,418  
 5 doors  
 YD08APF 10/03/2008

MOT till November 2016  
 Car tax till November 2016

Few minor scuffs and scratches on the exterior (we could use some back to black and t-cut to smooth them out)

Interior is clean after a while

We have the service receipts and tax history. It's a black Exceeder. It's a medical car. If you have a medical condition it is a medical car who can't drive head gas. It's a good price for a very popular and tax and lots of new parts that are very low priced for a diesel. It's currently at our garage but we can't move it here to test it. It's a bit but it's a good one for a diesel and has a 5 door.
