Wonderful old original enamel pail in white with a black rim and dark real wood and thick wire handle. This is in very good condition for its age with just a little rust around the edges and inside the base as would be expected for an item of this age that would have been used daily. Great as it is for a practical bucket wherever needed, or would make a great place to keep potatoes or household cleaning items in a laundry/utility room. I think it would make a brilliant kitchen utensils holder as it has ample room for lots of wooden spoons and whisks etc or these make quirky waste paper bins in the bathroom or any room really (nice lined with a plastic bag so rubbish can easily be emptied, or another idea is to keep your peelings and veg waste in it ready to take out to the compost. Such a lovely thing and full of character. It measures 28 cms high and is just over 28 cms in diameter at the top. I am also selling an awful lot of other vintage and preloved items so please take a moment to see my other things for.
