15hh 9yr old Hackney x Tb bay mare

I've had indie 2 and half years she's the most loving mare I've ever met very gentle. Now she's has a bad start in life and was passed about a lot! She has a dent in her withers and a scar due to a carting accident when she was younger she also has a pollen Allergy, which causes her to be snotty and sometimes coughs. ( this has been confirmed by the vet ) now Im offering her as a companion only ( it's up to you if u have the time and knowledge to bring her back in to work ) as she has been known to buck and I've lost my confidence with her she's only bucked twice as I believe this is because she's cold backed and I didn't lunge her before I rode ( if lunged she's fine ) and it's happened in October both years, she doesn't jump and is green on the road but fine in the school but would need schooling? So if for ridden use she will prob need a lot if work, Due to her past indie is a one to one horse she needs to learn to trust u as she can be wary, she needs an understanding home! I don't want her going to a novice so must be experienced!! She's a fab nanny horse loves foals gets along with everyone not at all Mareish! She's up to date with farrier teeth and worming not jabs though, Also has sweet itch but managed with kill itch and a fly rug, very hardy can live in or out and lives on thin air so doesn't need a lot of feed and isn't rugged This is very heart braking for me as I promised myself I'd never get rid her but I just can't give her the time with my health. And financially can't afford to keep her anymore Homes will be vetted based in Surrey I can't deliver as my box is off the road but may beanie to get her delivered at ur cost I haven't had her back checked as I don't have the funds to do so and she doesn't come with
