Hello my name is Montserrat and I am originally from Barcelona. Let me tell you about my courses. I believe that in order to learn, learners have to be relaxed, in a happy and friendly atmosphere. This is my aim from my very first session. I know each person learns at a different pace but I do encourage all learners to support each other and work as a team. That way everybody works together towards the same goals. I use a variety of activities such as visual presentations, listening exercises, role play, watching videos, reading and writing exercises and working on all the skills that a person needs to learn a language. I also use a variety of games including bingo so you can learn the numbers, quizzes to revise topics and the odd one out to recognise vocabulary. I give plenty of opportunities for learners to speak the language as I believe this is the best way for them to gain confidence and progress quickly. I also teach Spanish culture and traditions because I believe that it is all part of learning a language. I find this job very rewarding as I can see how students progress and the feedback has always been positive from nbsp;.
