Orange, 2 owners, This one comes fitted with a Vapor speedo, Plastic Bash Plate, Handguards, Stealth Rear Sprocket, Rad protectors. An all-new frame, shared across most of KTM's 2012 enduro bike range, is the result of extensive work to increase torsional rigidity, yet reduce longitudinal rigidity and lends an immediate feeling of control. The new liquid-cooled, 4v, DOHC, 349.7cc, four-stroke single is as compact as a 250cc motor, yet offers similar power to a 450 producing 46bhp. Typically excellent KTM build quality, with top quality components mean that every aspect of the bike just works. If you're looking for an enduro bike that uniquely blends nimble agility and 450 pace, this is it. With fully adjustable WP upside down forks and linkless rear suspension, Excel rims, wavy discs and both electric and kick start, the 350 EXC-F is well equipped for the job in hand. The North West's finest family run motorcycle dealership, £3,850 p/x
