

You can Google our portfolio. Search 'SE Software Technologies' and it will be among the first hits.

- + Bespoke design
- + 1-5 pages
- + Fully responsive to look and work great on all devices
- + Integrated Google Map
- + Hosting and domain name for the first 12 months
- + Links and feeds from your social media pages

## What to expect when you work with me -

- 1) We have a 30 minute phone consultation about your product/service. We'll discuss the main elements you need included in your website, and the core message that you'd like to relay to potential viewers.
- 2) From the information gathered, I put together a prototype website. This will give you a really clear and visual idea of what to expect. Any tweaks can be made at this stage.
- 3) Once you give me the go ahead, I work on the final build! As a rough timescale, to get your site to a

~~professional standard will take around 10-15 days in total~~
