Our mini motos deliver unbelievable power to weight & size ratio,these ride on mini motorbikes are designed to be the ultimate boys toy. Built from the ground up to be a mini racing motorbike. You can just imagine the adrenaline rush of dashing along at 40mph when you're just inches from the ground - an experience to be believed. This is the latest 2014 version of this very popular Mini Moto Quad and includes a number of important upgrades making it the best and most reliable Mini Moto Quads available. These upgrades include re-designed front disc brakes, stronger axle bearing, stronger front frame and improved easy-start pullstart mechanism.

These 50cc Mini Quads are aimed at younger kids where the light weight and nimble handling make them easier and safer to ride. The power can be restricted to provide the appropriate amount of power for the riders ability plus there is a safety tether that can be operated by the parent for extra security.

The Quad has a Quad Release designed to safely in many different forms that meet the needs of the rider and the horse. The safety features include a release that restricts motion of the Quad from making any movement allowing the rider confidence to go with the horse. The Quad is simply released by the rider's settings on the machine which can be performed in a safe manner. There is no need for the Quad to be used on a long lead to enable you to stop the Quad should the rider loose control or attached to the rider's wrist to bring the Quad to a safe halt should the rider become unseated. 04-11-11

Why you should buy the Mini Quad Bike?

What better way to introduce your child to the thrills of riding a Real Bike in the security of a safely controlled environment, you can keep control while it's needed and then release control gradually once your child

has mastered the skills. Features Thumb throttle (to protect the riders wrist) just like large Quads Improved easy pull start mechanism Front and rear disk brakes Safety Tether Can be restricted to walking pace Stronger Frame Durable New Style plastics Full rev 'n' go Transmission: Chain drive Starting System: PULL start Start Ignition: CDI Cooling system: Air Cooled Light and small enough to fit in a car Specification 49cc 2-stroke air cooled engine 2.5kw at 8700rpm Rear Disk Brake Net weight 29kg Carrying capacity 95kg (15 Stone) Dimensions: 1000mm length, 590mm width, 630mm height Intended for over 14 years only (younger children at parents discretion) Designed for off road use only – not to be used on a public highway Required to use This model is fully factory built and Ready To Run. Some minor assembly may be required to refit some small items that may have been removed to enable the bike to fit in the packaging the footrests or items that have been packaged separately to avoid damage such as screens. All that's needed is unleaded petrol and 2 stroke oil. Safety Notice Health and Safety has determined that this type of product is intended for use by 14 years and above. Terms and conditions of supply for Mini Motos, Pit Bikes and Quad Bikes. All motorbike's and quad-bikes can be dangerous if used incorrectly. Please wear appropriate safety equipment at all times when using bikes or similar machines. The use of any powered vehicle could involve the risk of injury or death. Please use these products in a responsible manner.

The products that we supply are technical & mechanical products, which require mechanical knowledge and ability to use and maintain. You should not purchase these products unless you have a good understanding of how to use and maintain mechanical products.

None of the bikes we provide are 'road legal' and are not for use on the public highway. These bikes are intended to be enjoyed on private property. Use of these bikes on a public highway could result in criminal proceedings.
