Suzuki van van rv125. 2007, 9716 miles only. Very reliable bike and great fun to ride. Big chunky tyres make it stand out from other bikes and give it its cool retro look. Very economical doing about 100mpg and only £17 for a years road tax. MOT until may 2016. Has had a chain/ sprocket conversion giving slightly more speed, otherwise completely standard. Full service about 200miles ago, oil filters etc. Full service history, owners manual,v5. Very reluctant sale but I just don't use the bike enough. Includes lockable top box for helmet etc and nearly new helmet.
