No prior knowledge of photography is required as each student will be taught individually, according to their level. Recognise correct lighting, contrast and texture to shape and form each shot. Learn the impact of using long exposure, shallow depth of field and other techniques. Work with Alan to review your shots, accept new ideas and improve your photography. See the website for booking details. To be kept informed about all of my classes and workshops, please sign up for my regular newsletter.
