Zafira 1.6 life 2004, for sale. Very good condition car inside & out I have renewed all sensors on engine as I had trouble with engine last year but I sent it to vauxhall & found the problem was a split pipe in fuel tank & now it runs lovely. It has a new exhaust 3 parts, new rear back brake pads. It has done 110210 miles only, MOT till 3rd march but should go straight through, only reasons getting rid of is the gearbox has gone but I know you can get one online between £50.00 to £200.00 I cant do the repair any more as my disability has got worse & I'm going to get a mobility car now. I think it would make a nice family car for someone as it is too good to scrap. We would like £500.00
