Camera Recorder With car insurance prices going up and up, it's important that our no claims discount is kept intact. This hand Camera Recorder could be your saviour if you get into a road accident dispute. This camera, with suction connection for easy attachment and removal, can record up to 16 hours on a 32GB SD card (not provided). It can provide quality video evidence in case of accident disputes and features a continuous loop recording. It features a simple USB 2.0 Hi-Speed PC connection for fast downloading. Recording resolution of 1280 x 720 HD. The HD in-vehicle video journey recorder is the easiest way to cover your back should an incident occur. Screen displays while stationary and in motion.
