Daniele Calimera is a professional Voice Teacher , certified with IVA (Institute for vocal advancement). After studying theory, composition, solfeggio and piano at ST. LOUIS college of music in Rome, Daniele began seriously studying vocal technique, but wanting to develop further he joined the Institute of Vocal Advancement on their teacher training program working with some of the world's foremost voice experts. After experiencing the dramatic changes this technique brings giving him the ability to smooth the breaks in his voice, he is now bringing his experience both on the stage and in the classroom to a new generation of performers and singers. He's studied singing with IVA Master teacher Stephanie Borm-Krueger and Jeffrey Skouson, mentor IVA Teacher Andres Martorell, advanced IVA Teacher Rachel Black and Level 3 IVA Teacher Roberto Delli Carri.

With IVA method you will be able to:

- Sing smoothly through an increased range and without breaks.
- Sing in the mix with stability in your voice.
- Sing with greater power, flexibility and control over dynamics, pitching, vibrato and styling for all genres.
- Preparation for castings and auditions.
