http://www.canaryelectronics.com/index.php?id_product=64&controller=product&id_lang=1 Immerse yourself in stunning entertainment in a sleek and elegant package with the Samsung SUHD UE55JS9000 Smart 3D 4k Ultra HD 55" Curved LED TV.

Ultra HD

The UE55JS9000 boasts the SUHD resolution, providing you with Ultra HD viewing that brings entertainment to life. The Nano crystal technology boosts colour detail to make images more vivid, with bright colours and better contrast on your curved screen for the clearest viewing experience.

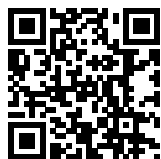

Give your entertainment the detail it deserves thanks to the UHD Upscaling technology. This helps to keep images sharp by converting lower resolution content to a much higher level. At a resolution that's even higher than Full HD, you'll be able to watch your favourite shows in the very highest quality.

Bright and beautiful

The JS9000 includes Peak Illuminator Ultimate and Precision Black Pro technology which makes colours twice as bright. The Peak Illuminator Ultimate uses the energy that's saved when pixels aren't lit to make bright images brighter than ever. This means you can enjoy brighter images without increasing power consumption.

The JS9000 includes Peak Illuminator Ultimate and Precision Black Pro technology which makes colours twice as bright. The Peak Illuminator Ultimate uses the energy that's saved when pixels aren't lit to make bright images brighter than ever. This means you can enjoy brighter images without increasing power consumption.

Curved design

You'll be able to immerse yourself in movies, TV shows and more thanks to the curved design of the 55JS9000. The bespoke curved radius of the TV works alongside the screen size to provide excellent viewing. The design shortens the distance between you and the corners of the screen so you'll feel like the curved screen is surrounding you, putting you right in the middle of your entertainment.

The Auto Depth Enhancer technology delivers images that are almost life-like, and the higher levels of contrast means that you'll be able to see everything clearly. It also reduces the amount of external light reflected towards you, so you'll always have the best seat in the house.

Smarter viewing

The JS9000 includes Smart features that bring the best of the internet to your living room. With an advanced Octa core processor at its heart, this TV lets you enjoy high speed gaming, quick performance and multitask to get the best from your viewing.

The new Smart Hub platform provides you with access to a range of content, including Ultra HD streaming from apps such as Netflix and Amazon – and there's even more on the way.

You'll be able to easily browse for what you want to watch while you're still watching TV, or even settle down to a game that you can play straight from your TV.

It's easy to connect your Smart devices to your TV using Bluetooth and WiFi Direct technologies, which means you'll be able to share apps, mirror your screen and stream content from your phone or tablet on your TV.

When you use Brief on TV, you can even set your TV to come on when your alarm goes off. You can customise it to show information such as the time, the weather and your daily schedule, so you'll be able to start every day well informed.

Ready for anything

Reengineer your TV by updating the software and hardware using the One Connect technology. The Smart Evolution Kit is unique to Samsung, which means that your TV will always be at the cutting edge.
