Curved to perfection

Immerse yourself in the biggest blockbuster or the latest 3D game, Samsung's curved Ultra HD screen draws you into the action.

Auto Depth Enhancer technology creates images with deeper 3D-like quality, perfectly complemented by a wider field-of-view to give you a great view from any angle.

The perfectly curved screen also produces higher levels of contrast, so less external light is reflected off the screen.

Smart TV

Get the latest apps and access the best UHD content from Netflix and Amazon. The new Smart Hub platform lets you enjoy UHD streaming, catch-up TV and games services at the touch of a button.

Quick and easy to use, you can browse content easily and search for your favourite programs and movies with the Smart Hub TV.

You can also use Bluetooth to connect your Samsung UE65JU7500 Smart 3D Ultra HD 4k 65quot Curved LED TV to your smartphone or tablet to view UHD content and games straight from the screen.

Double the choice with Multi-Link screen or check out live TV while using an app on the same screen. The 65JU7500 also lets you stream content from two different sources and adjust the size of each image for versatile viewing.
