Nissan Primera for sale cheap to run, insure. An INCREDABLY reliable car. NEVER let me down in 10 years! And what a comfortable drive. Engine and gear all working as they should, all electronics working, new exhaust 6 month ago. Sailed through MOT every year. Present MOT just expired, though one 'advisory from last year - "Offside brake pipe slightly corroded". Great shame to see it go, but selling because the following small 'niggles' developed over the past couple of years have become just too much for me, most NOT affecting the MOT ; Driver mirror damaged, radio/stereo not what it was, aerial broken, Wipers need attention, 1 boot damper not working. Body in good condition, with few blemishes for age, but in need of a good clean. Inside even better, no rips/little wear, though again would benefit from a valet. All the usual extras for this model.

Any question just ask, viewing highly recommended. Car listed elsewhere so I have a right to cancel listing if sold before auction finishes. For spares or repair. Cash on collection, then drive.
