Here i have for sale my twin axel 25 ft 6 birth caravan. It is immaculate inside and just had professional valet. It has an end bathroom & shower room. No damp inside the van what so ever, full blow heating. All electrics work as well as the cooker & fridge freezer. The bunks are like brand new. There is slight damage done to the rear left hand side of the caravan, it has a small ding which has been repaired and water sealed so no damp can get through. We have lived in the van in wales comfortably for 5 months and no water has come through the damage feel free to bring your damp meter. I paid over 6000 pounds for this van over 6 months ago, the only reason im selling it is because we dont need it anymore, we bought it while my house was being renovated and now no longer use it. Any inspection welcome. Going cheap as need it gone;
