Our beautiful full pedigree Persian has had her first litter of kittens. This stunning litter of four kittens have been born and raised in our family household. They have been loved and well handled from an early age so are very sociable and affectionate. The kittens have all been wormed and flea treated. We are looking for very special forever homes as they are to be strictly indoor cats only. Each kitten will come with 4 weeks free insurance, a supply of food and a toy. The kittens will be ready to go..
