This computer is more expensive than other All-Purpose laptops as they normally go for £749.00 on average. Better build quality than the MacBook Pro ---All-Purpose machine and fits a wide variety of needs & can handle most office or school-tasks.---AMD Quad-Core A6-3410MX with AMD Radeon HD 6520G Graphics (2.3 GHz/1.6 GHz, 4 MB L2 cache, 45W) Processor.---4 Cores: It is a quad-core processor, meaning that it will be very good at performing multiple tasks at the same time,---A nice feature is the ambient light sensor, which measures the surrounding level of brightness and automatically adjusts the screen brightness accordingly. This actually works really well. In direct sunlight, the sensor sets the screen brightness to max. For the following measurements, we turned off the automatic brightness by pressing Fn+F11. The luminance came to 195 cd/m². We found the screen was very evenly lit at 93%, the most luminous spot measuring a bright 202 cd/m².---The finish of this 14" screen makes it usable outdoors.
