

Night Shoot Photography Workshop - March 9th

Location

West Midlands, Warwickshire

<https://www.freeadsz.co.uk/x-255656-z>

Join me for this night time shoot in Warwickshire, exact location to be advised closer to date based on seasonal opportunities. Kenilworth and surrounding area is a potential but possibly Stoneleigh too. This is a good chance to learn and practise using the exposure triangle to balance ISO, Shutter Speed and Aperture to create the effects you want. Shooting at night presents challenges and opportunities as we learn to see how light and dark tones contrast and how longer exposure times can create dynamic pictures. <http://www.alanranger.com/photography-workshops/> Read more about this and many other workshops on my website. Sign up for the newsletter to be kept informed about all future dates and opportunities. www.alanranger.com
