Canon EOS 5D Mark III 22.3 MP (1,400 GBP)

Location **North, Cheshire** https://www.freeadsz.co.uk/x-256386-z

The Canon EOS 5D Mark III is a powerful camera that offers a full-frame 22.3-megapixel sensor to capture high-quality images. It's perfect for professional photographers and advanced enthusiasts everywhere. With a robust dust- and moisture-proof chassis, this EOS 5D Mark III shoots photos in resolutions up to 5760 by 3840 pixels. The EOS 5D Mark III's DIGIC 5+ processor ensures colours are bright by taking sensitivity to 25,600 ISO. In fact, you'll get perfect results even in dim lighting. The 3.2" screen makes the 5D Mark III comfortable to use. The continuous shooting mode records up to 18 images in RAW format with a UDMA card, and there's also a video mode for further options. Video is recorded by the Canon EOS 5D Mark III in resolutions up to 1,920 by 1,080 pixels. A microphone can be added to enhance sound quality. And that's not all! The Canon EOS 5D Mark III is also equipped with three custom modes that can be selected with the dial. Plus, it's compatible with infrared remote controls. Among the other features, you'll find face detection, automatic sensor cleaning and Pictbridge support for printing without a computer. Take your photography further with the EOS 5D Mark
